

PROFILE · WEB APPLICATION DEVELOPMENT

Wolfgang Siegert

Frontend Developer · Vue · Nuxt · TypeScript

I completed vocational training as an IT specialist for application development and have more than five years of professional experience in web development. My focus is on responsive, component-based web interfaces with Vue.js, Nuxt and TypeScript.

Most recently, I worked at Etzensperger Informatik AG on client projects and the continued development of edoobox. Before that, I developed web apps, PWAs, mobile applications and administrative interfaces at LeanERA.

CORE FOCUS

Vue 2/3 Nuxt 3 TypeScript

Structure in the code.
People in mind.

01 Understand what exists

learn the application thoroughly and trace its connections

02 Deliver reliably

clear code, testing and straightforward coordination

03 Decide pragmatically

keep benefit and effort in a sensible balance

Professional expertise

01

Practical tools, organised by area of use.

</> Frontend

Vue.js 2/3, Nuxt 3, TypeScript, JavaScript
HTML5, CSS3, Tailwind CSS, Responsive Design

Vue.js TypeScript JavaScript CSS3

Components & State

Reusable components, Pinia, Vuex, Vite

Vue.js

Mobile applications

Ionic, Capacitor, Progressive Web Apps

Vue.js

Quality

Vitest, Playwright, error analysis, refactoring and maintenance of existing applications

Vue.js

APIs & Fundamentals

REST API integration, Postman; basic knowledge of Node.js, Express.js, MySQL and MSSQL

Node.js Express.js MySQL MSSQL

Collaboration

Git, GitLab, Bitbucket, Jira, Confluence, Scrum; coordination with UX/UI and support for CI/CD

Git GitLab Bitbucket Jira Confluence Scrum

AI in daily work

ChatGPT, Codex and GitHub Copilot for analysis and structuring; professional review and testing of results

ChatGPT Codex GitHub Copilot

02
